WORK EXPERIENCE

People Can Fly

Jan 2024 – Present

Senior Animator

Toronto, ON

- Created high-quality gameplay animations following established technical and design guidelines
- Prepared and refined animation assets for engine integration, ensuring clean blending, responsiveness, and gameplay readability
- Collaborated closely with animation leads, tech animation, and cross-discipline teams through regular reviews and iteration
- Adapted quickly to feedback and evolving gameplay requirements within a fast-paced AAA production pipeline

Ubisoft

June 2018 – Aug 2023

Animator

Toronto, ON

- Created polished animations and integrated them into the game engine, repeatedly testing, troubleshooting and debugging
 - Worked on several production pipelines including Gameplay, AI and Cinematics, often collaborating with the design and code team
 - Assisted with motion capture shoots. Brainstorming, Prototyping and acting
-

Gears of War: E-Day

Jan 2024 – Present

- Contributed to multiple player gameplay systems including locomotion, melee combat, cover mechanics, and traversal sequences
- Key-framed weapon melee attacks, enemy attack reactions and close-quarters animations
- Created and iterated on cover poses and gameplay silhouettes to improve clarity and player feedback
- Supported pre-visualization and pose development for animations that were later refined through mocap and polish passes

Splinter Cell Remake

Oct 2022 – Aug 2023

- Responsible for creating Player Takedowns as well as locomotion, interaction and traversal animations
- Worked closely with Animation TD to ensure the quality of the integration of the animations
- Collaborated with Animation Director during Pre-production to visualize and prototype Takedowns and Locomotion

Avatar: Frontiers of Pandora

Jan 2022 – Oct 2022

- Working with Director and Leads to create realistic cinematic animations including camera movements
- Contributed to the early cinematic pipeline by producing, exporting, and validating animations while collaborating with Animation TDs to resolve technical issues

Mythic Quest (TV)

Aug 2021 – Dec 2021

- Key-framed various animations such as lip syncs, bipedal and avian flight
- Retargetted and implemented animations into Unity engine

Watch Dogs Legion + Bloodline

June 2018 – July 2021

- Delivered diverse player takedown animation sets, ensuring consistency across characters and situations
- Created AI-driven and scripted animation events that triggered in response to gameplay conditions

EDUCATION

Durham College

Oshawa, ON

Sept 2015 – Sept 2018

Animation and Digital Production - Ontario College Advanced Diploma
